

Grade Reporting Instructions

Good grade reporting starts with keeping a well-maintained academic record book. **Please note** the weekly summary on the first week of Example 1. This percentage grade will be transferred to your AHE Quarterly Grade Reporting Form in the appropriate column (see Example 2).

Calculating the Final Grade

Documentation of the final grade for the Quarterly Grade Reporting Form will be derived from the percentages in your academic record book. (See Example 3.)

Probably the simplest way to calculate the final grade based on a point system is to divide the total number of points earned by the total number of points possible. For example, if the total number of points earned is 765 out of a total possible 840, then divide 765 by 840 as follows:

$$\begin{array}{r} 765 \text{ (student total)} \\ \div 840 \text{ (total possible points)} \\ \hline .9107 = 91\% \end{array}$$

Completing Quarterly Grade Reporting Form
